Germany

Health Diagnostics Lab, ID 98486. Äussere Weberstr. 57. 02763 Zittau. Germany

All tests will be sent to the UK for analysis.

INSTRUCTIONS

Test only requires 3 / 4 strands of fur, if longer than an inch. We test any form of fur from the pet.

- Ideally, samples should include the fur root, however we understand it is not always possible.
- If cutting the fur, please ensure you cut as close to the root as possible.
- Once hair sample is collected, place the strands into a small sealable bag ensuring the fur remains dry and secure during transit. Do not send fur samples in metal foil or other metallic packaging.
- Place fur samples in a secure envelope or postage wallet and post to our lab.
- Please ensure correct postage is paid. Incorrect postage can cause delays to the processing time.
- Please be careful not to include other items in the same bag as your hair sample as this can affect testing.
